

Canadian Transportation Industry Announcement:

You have known us in Canada for the past 32 years as Aero-Kit Industries Inc., but that's about to change as we take on a new business direction. We are excited to announce, effective immediately, our new corporate name has changed to **LCS-Load Covering Solutions Ltd.**

In 2010, we entered the American Transportation Industry under the new corporate name of **LCS-Load Covering Solutions Inc.**, so to ensure consistency to our customers throughout North America we will now operate under one name.

This strategic move has brought many changes to our company with expanded partnerships in new product lines from several innovative companies wanting to expand markets throughout Canada.

To complement our own complete line of flatbed load covering systems, new partnerships will allow us to expand into the waste management, aggregate and agricultural industries, with new and innovative solutions to load covering.

We are proud to announce the launch of our own line of the highest quality manufactured truck equipment products including Storage Boxes, Step & Saddle Boxes, DOT Bulkheads, custom made Headache Racks, heavy duty Trailer Ramps & Load Levelers – all marketed under our new trademark **LOAD ARMOUR™**.

We are looking forward to distributing to a diversified network of dealers throughout Canada, and welcome all new inquiries from companies that wish to buy and resell complete systems or aftermarket parts, provide installations or service.

LCS-Load Covering Solutions Ltd. looks forward to continuing to service the Canadian Transportation Industry with innovative, engineered products to provide premium load covering solutions to our customers.

I wish to thank all our loyal Aero-Kit® customers – many of whom have been with us for more than three decades – and welcome them in to the **LCS** organization. While our name may have changed, our commitment to designing of quality transportation products backed with seven day service remains the same.

I invite all transportation fleets, owner operators, dealers and OEMs to learn more about our company by visiting our full product line as seen on our website. Contact us and find out what's behind our new name, our company philosophy, and why we are a valued choice for the Canadian Transportation Industry when engineering of highly innovative load covering solutions is required.

Respectfully,

Brian W. Petelka
President
